LTI On-Demand Workshops

USING LEARNING TECHNOLOGIES IN YOUR TEACHING

What are learning technologies and what are they used for? Selecting and using learning technologies in your teaching

ASSESSMENT AND FEEDBACK WITH TECHNOLOGY

Explore how technology can be used to enhance the assessment lifecycle, from submission to marking and feedback.

DRIVING STUDENT ENGAGEMENT IN MOODLE

A session focused on the use of Moodle and its features to enhance teaching by engaging students in the learning process.

ACTIVE LEARNING USING TECHNOLOGY

Discover and discuss practical ideas around the active learning approach and how technology can facilitate it.

USING TURNITIN IN MOODLE

Learn how to use the Turnitin Moodle integration for originality check of assignments and get help on setting it up.

ACTIVE LEARNING: FLIPPING LECTURES

An overview of the concept of "flipping the classroom" and how it translates in terms of technology and learning activities
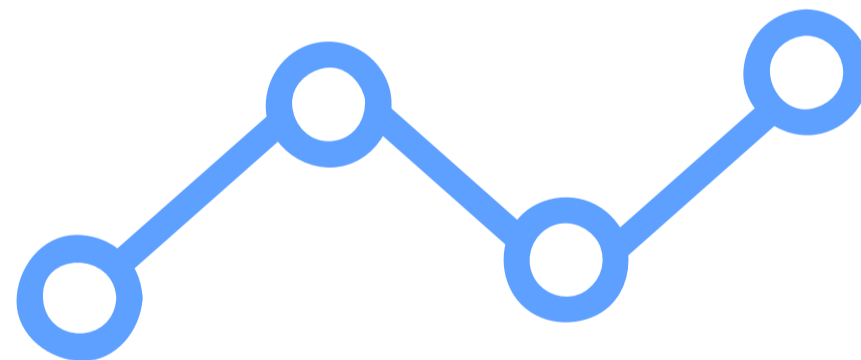

VISUAL SOCIAL SCIENCES

An introduction session to filmmaking for teaching and learning and its underpinning concepts, including examples of successful projects from colleagues

ACTIVE LEARNING SPACES

Explore how the design of physical spaces can encourage more active learning and how to make the most of the spaces and technology available to you at the LSE.

TOOLS & TIPS TO ORGANISE & MANAGE INFORMATION

Discover and/or explore tools that will help you manage your tasks, files and time better

INDIVIDUALS

LTI will run these sessions on an as and when basis. Express your interest using LSE's training system and we will get in touch once the minimum number has been reached.

GROUPS AND DEPARTMENTS

Get in touch with us to organise training that suits your needs. Choose session(s) from the scheduled and on-demand list and contact s.ney@lse.ac.uk to arrange for tailored training.
